Avotus Achieves
Cisco Compatibility Certification with the Cisco Solution Partner Program

OAKLAND, New Jersey – Feb 27, 2017 – Avotus Corporation announced today that Avotus Enhanced Usage Reporting (EUR) has successfully achieved compatibility certification with Cisco Unified Communications Manager, 11.5. The Internet of Everything (IoE) continues to bring together people, processes, data and things to enhance the relevancy of network connections. As a member of the Cisco® Solution Partner Program, Avotus is able to quickly create and deploy solutions to enhance the capabilities, performance and management of the network to capture value in the IoE.

Today's complex communications environment presents new opportunities and risks to the enterprise. A comprehensive Usage Reporting solution needs to go beyond voice and provide big data capture, management and analytics for the full suite of unified communication methodologies. Avotus EUR delivers visibility into a customer's UC environment including; voice, video, conferencing, instant messaging, wireless and file sharing.

 "We are thrilled to have tested compatible with Cisco Unified Communications Manager 11.5," states Avotus Director, R&D, Glenn Ehmke. "Our continued work with Cisco conveys our commitment to bringing visibility, big data management, security oversight and UC abuse risk mitigation to Unified Communications platforms. The focus of our newly released EUR is an expansion of the Unified Communications module with an additional 30 updates surrounding security and an enriched overall user experience. Additional improvements include an updated multi-tenant licensing structure and simplified patch versioning."

The Cisco Solution Partner Program, part of the Cisco Partner Ecosystem, unites Cisco with third-party independent hardware and software vendors to deliver integrated solutions to joint customers. As a Solution Partner, Avotus offers a complementary product and collaborates with Cisco to meet the needs of joint customers. Click here to view.
