

Avotus Releases Free White Paper: Gaining Visibility and Cost Efficiencies via Strategic IT Asset Management (ITAM)

Paper details visibility and financial benefits available from effective ITAM solutions which track inventory in real time.

OAKLAND, New Jersey – June 23, 2016 – Avotus Corporation, the leading provider of Intelligent Communications Management (ICM) solutions, announces that it has released a free white paper entitled: Gaining Visibility and Cost Efficiencies via a Strategic IT Asset Management Solution . The paper identifies the numerous challenges and costs associated with manually managing IT, telecom and cloud services. Moreover, the paper details the difficulties CIOs face when unifying telecom and wireless expense management with Cloud and IT Asset Management (ITAM) – and how to solve those problems.

“Meaningful ITAM implementation solves a number of the biggest challenges in expense management and asset management,” stated Avotus CEO, James Martino. “This includes the ability to obtain, in a cost-effective manner, accurate and clean, real-time inventory of telecom and IT assets. The integration of telecom, wireless, cloud and IT asset management isn’t a pipe dream anymore. Our paper comprehensively details the issues and provides an actionable roadmap for CIOs to use when sourcing an ITAM solution that provides the biggest return on investment.”

Key issues addressed by the paper include:

- ITAM and Expense Management – Challenges
- Benefits of a Comprehensive ITAM Solution
- The Case for Automated ITAM
- The Need for a Configuration Management Database (CMDB)
- ITAM and Compliance
- Implementation of an ITAM Solution
- Identifying the Most Effective ITAM Solution
